

Match the “type of number” with the best “example number” for the 3 sets. Draw a line from the “type of number” to the “example number” to indicate your answer.

natural $\sqrt{3}$

imaginary 62

real 1.8

rational $\sqrt{-53}$

irrational -5873

whole $\frac{7}{5}$

rational $\sqrt{1.2}$

integer 2

natural 0

whole $-\frac{1}{3}$

integer 341

rational -1

Match the “type of number” with the best “example number” for the 3 sets. Draw a line from the “type of number” to the “example number” to indicate your answer.

natural	$\sqrt{3}$
imaginary	62
real	1.8
rational	$\sqrt{-53}$

irrational	-5873
whole	$\frac{7}{5}$
rational	$\sqrt{1.2}$
integer	2

natural	0
whole	$-\frac{1}{3}$
integer	341
rational	-1
